## ENTERPRISE INTRODUCTION

Cloud Embedded Technology Limited, known as Cloud and branded as CESIPC, is headquartered in Shenzhen, China. With 14 years of steady and mature development, we have evolved into a world-leading designer and manufacturer of specialized computers. By capitalizing on the rapid advancements in the industrial Internet of Things and Industry 4.0, we actively invest in key applications, including industrial automation, food and medicine, emergency communication management, intelligent transportation, and smart energy.

At CESIPC, we pride ourselves on our independent R&D team and state-of-the-art manufacturing facilities. Our capabilities allow us to meet the diverse and customized needs of our clients with high-quality, reliable industrial motherboards and industrial PC products. Our extensive product range includes multiple series and sizes, all designed for high stability and reliability.

Our company is built on the principle of "Artisan Culture," emphasizing integrity, pragmatism, cooperation, and mutual success. We are committed to working hand-in-hand with our clients to create shared value and foster long-term partnerships. Our customer-centric approach ensures we deliver high value-added services, positioning CESIPC as a leading force in China's embedded industry and a preferred partner for channel distributors worldwide.

## Advantages

As a national high-tech enterprise, CESIPC is a leading industrial computer manufacturer in China. Based on independent R&D and innovation, we are proud of our main products with independent intellectual property rights and a strong R&D team. Our R&D team has more than 20 years of experience in the field of embedded computers and has accumulated a wealth of expertise.

The CESIPC team consists of hardware engineers, BIOS engineers, PCB layout engineers, test engineers, software engineers, and institutional engineers. With diversified technical backgrounds and rich industry experience, we are able to provide a variety of ODM/OEM industrial and military-grade computer products to customers around the world, ensuring high reliability and excellent performance.

CESIPC has always been committed to advancing the field of industrial computers and providing innovative solutions to customers.

CESIPC will continue to pursue technology and provide excellent computer products and services to partners in all walks of life.

## Quality

CESIPC's product line includes four categories: Industrial PC, Industrial Panel PC, Rugged Tablet, and Rugged Laptop. We firmly believe that achieving excellent quality stems from a continuous pursuit of perfection. Through rigorous risk assessments and extensive testing, CESIPC delivers industrial-grade products that earn customer satisfaction and trust.

CESIPC adheres to strict quality management standards, always prioritizing the customer's perspective. Our commitment extends beyond meeting functional, performance, stability, and maintainability requirements. We are dedicated to continuously improving product quality. This approach not only saves customers time, costs, and resources but also reduces development risks, ensuring the stable and reliable operation of our products in diverse and complex environments.

## Technical Qualification

CESIPC prioritizes technology and quality, maintaining a strong focus on market demands and customer needs. We are committed to continuous innovation and the development of products with core competitive advantages. CESIPC products adhere to the ISO 9001 quality management certification system and have received recognition from various certification standards, including CE, CCC, RoHS, and FCC.

# LEGO MODE

## Introduction

CESIPC's LEGO construction technology is based on the design philosophy of LEGO bricks. Through modular design, It creates a LEGO MODE ecosystem library, providing diverse and personalized functional boards to meet the needs of various industries. This approach achieves a high degree of modularity and flexibility, ensuring that customers can flexibly combine and expand functional modules to meet the requirements of different application scenarios.

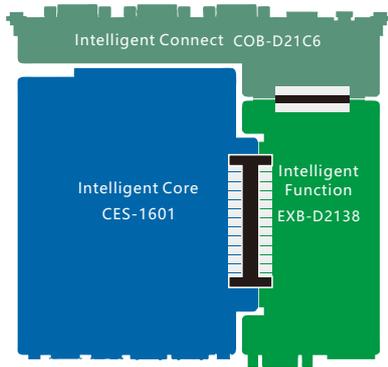

CESIPC's LEGO construction technology consists of three main modules, which we can collectively refer to as **3i**:

# LEGO MODE

## About Intelligent Core

CESIPC's Intelligent Core is the central brain of the LEGO construction technology. It integrates the processor, memory, and hard drive as a fixed module within the system, delivering exceptional computing power and data storage capabilities. The Smart Core Board offers various processing performance options, allowing customers to choose based on specific needs, ensuring optimized system performance. This module has been extensively validated in the market over a long period, demonstrating high stability and reliability, which ensures the safe operation of the system. Additionally, the Smart Core Board is designed with excellent scalability and compatibility, facilitating seamless integration with other functional modules to meet the personalized needs of different industries and application scenarios. This design philosophy not only enhances product flexibility but also boosts the overall performance and security of the system.

## About Intelligent Function

CESIPC's Intelligent Function is one of the most crucial modules in LEGO construction technology. It expands functionality based on standard industrial buses, supporting various bus interfaces such as PCIe, LPC, USB 3.0, USB 2.0, SMBUS, and SPI.

The Intelligent Function board supports small-batch customization and rapid development, catering to customers' cost considerations. It meets all industrial field environment and interface requirements, ensuring product stability through the intelligent expansion connector and is adaptable to various demanding industrial application scenarios.

In today's era of high personalization demand, CESIPC continues to develop the LEGO MODE ecosystem library.

Currently, the diverse Intelligent Function modules can quickly provide extensive customization services for customers across various industries.

# LEGO MODE

## About Intelligent Connect

The CESIPC Intelligent Connect board is a modular IO interface board based on LEGO MODE technology, which can be replaced and customized according to customer needs. By swapping out different Intelligent Connect boards, users can achieve multiple IO outputs and communication functions, including USB dongle, USB 2.0/3.0, RS-422/485, RS-232, digital I/O, WiFi, Bluetooth, WAN, and Gigabit Ethernet, meeting the demands of various application scenarios.

The CESIPC Intelligent Connect board strictly adheres to multiple international and industry safety standards to ensure its reliability and safety in diverse applications.

### COB-D2212

- Cesipc's Standard Lego Mode Technology
- Compatible With L300 Profile 1601/1901 Motherboard
- Provides 4 Serial Port Boards
- Provides 2 USB Boards

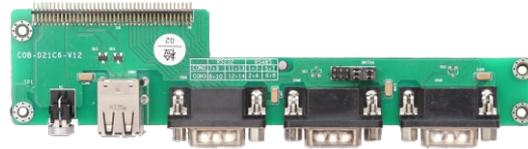

### COB-D21C8

- Cesipc's Standard Lego Mode Technology
- Compatible With L300 Profile 3802 Motherboard
- Provides 6 Serial Port Boards
- Includes A Built-in Switch

### COB-D2235

- Cesipc's Standard Lego Mode Technology
- Compatible With L300 Profile 1601/1901 Motherboard
- Provides 5 Serial Port Boards
- Includes A 4-pin Phoenix Terminal Switch

### COB-D21C6

- Cesipc's Standard Lego Mode Technology
- Compatible With L200 Profile 1601/1901 Motherboard
- Provides 3 Serial Port Boards
- Provides 2 Usb Boards
- Includes A Built-in Switch

### COB-D2233

- Cesipc's Standard Lego Mode Technology
- Compatible With L300 Profile 1601/1901 Motherboard
- Provides 5 Serial Port Boards
- Includes A 4-pin Phoenix Terminal Switch

### COB-D2225

- Cesipc's Standard Lego Mode Technology
- Compatible With L200 Profile 1601/1901 Motherboard
- Provides 3 Serial Port Boards
- Provides 2 USB Boards
- Includes A Built-in Switch

### COB-D2292

- Cesipc's Standard Lego Mode Technology
- Compatible With L300 Profile 1601/1901 Motherboard
- Provides 5 Serial Port Boards
- Provides 2 USB Boards
- Includes A 4-pin Phoenix Terminal Switch

### COB-D2168

- Cesipc's Standard Lego Mode Technology
- Provides Multifunctional Buttons
- Supports Customizable Button Settings

### COB-D21C7

- Cesipc's Standard Lego Mode Technology
- Compatible With L200 Profile 3802 Motherboard
- Provides Voltage Filtering Functionality

- LEGO MODE Modular
- Fanless Design
- Highly Compatible Structure
- Strong Processing Capacity
- Great Expansibility
- Support Customization

## 01 Modular Design and Stability Upgrade

Based on CESIPC's iDoor technology, the UPC series adopts a modular design. This includes Intel® Celeron® J1900, Intel® 7th Generation Core™ processors, and Intel® 10th Generation Core processors, achieving a diverse combination of performance.

## 02 Meet Customization Requirements

To meet the different functional and performance needs of customers, we provide customized services. We can quickly develop a variety of I/O ports according to customer requirements.

## 03 Efficient Heat Dissipation, Rugged and Durable

Utilizing high-strength cast aluminum alloy molding and copper and aluminum integrated high-efficiency thermal conduction technology, we ensure the robustness and excellent heat dissipation performance of our industrial computers.

## 04 Cable-Less Design

The entire machine is designed without cables, reducing the risk of failure and improving the reliability of the overall system.

## 05 Worry-Free Upgrades and High Compatibility

Product upgrades are forward-compatible, allowing customers to easily replace new high-level modules to maintain the modernity and sustainability of the system.

## Flexible Combinations

### 01 Modular Design and Stability Upgrade

CESIPC's iDoor technology brings a new upgrade to our products with a modular design, significantly improving product stability.

### 02 For Easy Maintenance

The unique split core design makes product assembly and maintenance more convenient. Separating the core board from the functional module boards simplifies the maintenance process and lowers costs.

### 03 Highly Compatible Structure

The modular design of our CPU computing platform allows you to choose different models of processors according to your needs, such as Intel® Celeron®, 7th Generation Intel® Core™ i3/i5/i7, and 10th Generation Intel® Core™ i3/i5/i7. This variety of processor options meets different computing needs.

### 04 Customized I/O Interfaces

To better meet the functional and performance needs of customers, we support fast customization of various I/O interfaces, such as multi-network ports, multi-serial ports, and multi-USB ports. This personalized customization caters to a variety of specific needs.

### 05 Strengthened Heat Dissipation Design, Cast Aluminum Alloy Molding

In terms of heat dissipation, we use high-strength cast aluminum alloy molding to effectively improve the durability and heat dissipation performance of the product. Copper and aluminum integrated efficient thermal conduction ensure a smooth and efficient

### 06 Cable-Less Design

The unique cable-less design further enhances product reliability and stability. This design not only reduces the risk of cable failure but also enhances overall reliability in use.

### 07 Upgrade Performance and High Compatibility

Product upgrades are forward-compatible, making it easy for customers to replace modules with new advanced ones. This flexible upgrade method follows technological advancements and extends the product's life cycle. Regardless of future changes, we will provide customers with ongoing support and excellent product performance.

## UPC-108H

### Product Features

- Processor: Intel® 7th Generation Core™ i3/i5/i7 Processors
- Memory: 4GB-16GB DDR4
- Hard disk: mSATA 128GB SSD, optional 256GB, 512GB, etc
- I/O interfaces: 2xLAN, 4xUSB 3.0, 2xUSB 2.0, 2xCOM
- Power input: DC 12V 5A
- Working temperature: 0-50°C, optional wide temperature -40°C-70°C
- Operating system: Supports Windows7/10/11 And Linux
- Size: 195mm×160mm×65.3mm
- Built-in lithium battery: ensures uninterrupted operation and data security for the industrial computer.

## UPC-206A

### Product Features

- Processor: Intel® Celeron J1900 Processors
- Memory: 4GB-8GB DDR3L
- Hard disk: mSATA 128GB SSD, optional 256GB, 512GB, etc
- I/O interfaces: 2xLAN, 1xUSB 3.0, 5xUSB 2.0, 3xCOM
- Power input: DC 12V 5A
- Working temperature: 0-50°C, optional wide temperature -40°C-70°C
- Operating system: Supports Windows7/10/11 And Linux
- Size: 195mm×160mm×46mm

## UPC-208A

### Product Features

- Processor: Intel® 7th Generation Core™ i3/i5/i7 Processors
- Memory: 4GB-16GB DDR4
- Hard disk: mSATA 128GB SSD, optional 256GB, 512GB, etc
- I/O interfaces: 2xLAN, 4xUSB 3.0, 3xCOM
- Power input: DC 12V 5A
- Working temperature: 0-50°C, optional wide temperature -40°C-70°C
- Operating system: Supports Windows7/10/11 And Linux
- Size: 195mm×160mm×46mm

## UPC-209A

### Product Features

- Processor: Intel® 10th Generation Core™ i3/i5/i7 Processors
- Memory: 4GB-16GB DDR4
- Hard disk: mSATA 128GB SSD, optional 256GB, 512GB, etc
- I/O interfaces: 2×LAN, 4×USB 3.0, 2×USB 2.0, 3×COM
- Power input: DC 12V 5A
- Working temperature: 0-50°C, optional wide temperature -40°C-70°C
- Operating system: Supports Windows 7/10/11 And Linux
- Size: 195mm×160mm×46mm

## UPC-306A

### Product Features

- Processor: Intel® Celeron J1900 Processors
- Memory: 4GB-8GB DDR3L
- Hard disk: mSATA 128GB SSD, optional 256GB, 512GB, etc
- I/O interfaces: 2×LAN, 1×USB 3.0, 5×USB 2.0, 6×COM
- Power input: DC 12V 5A
- Working temperature: 0-50°C, optional wide temperature -40°C-70°C
- Operating system: Supports Windows 7/10/11 And Linux
- Size: 300mm×160mm×50mm

## UPC-308A

### Product Features

- Processor: Intel® 7th Generation Core™ i3/i5/i7 Processors
- Memory: 4GB-16GB DDR4
- Hard disk: mSATA 128GB SSD, optional 256GB, 512GB, etc
- I/O interfaces: 2×LAN, 4×USB 3.0, 2×USB 2.0, 6×COM
- Power input: DC 12V 5A
- Working temperature: 0-50°C, optional wide temperature -40°C-70°C
- Operating system: Supports Windows 7/10/11 And Linux
- Size: 300mm×160mm×50mm

## UPC-309A

### Product Features

- Processor: Intel® 10th Generation Core™ i3/i5/i7 Processors
- Memory: 4GB-16GB DDR4
- Hard disk: mSATA 128GB SSD, optional 256GB, 512GB, etc
- I/O interfaces: 2×LAN, 4×USB 3.0, 2×USB 2.0, 6×COM
- Power input: DC 12V 5A
- Working temperature: 0-50°C, optional wide temperature -40°C-70°C
- Operating system: Supports Windows7/10/11 And Linux
- Size: 300mm×160mm×50mm

## UPC-307A

### Product Features

- Processor: Intel® Celeron J6412 Processors
- Memory: 16GB DDR4
- Hard disk: mSATA 128GB SSD, optional 256GB, 512GB, etc
- I/O interfaces: 2×LAN, 1×USB 3.0, 5×USB 2.0, 6×COM
- Power input: DC 12V 5A
- Working temperature: 0-50°C, optional wide temperature -40°C-70°C
- Operating system: Supports Windows7/10/11 And Linux
- Size: 300mm×160mm×50mm

## UPC-309C

### Product Features

- Processor: Intel® 10th Generation Core™ i3/i5/i7 Processors
- Memory: 4GB-16GB DDR4
- Hard disk: mSATA 128GB SSD, optional 256GB, 512GB, etc
- I/O interfaces: 2×LAN, 4×USB 3.0, 2×USB 2.0, 4×COM
- Power input: DC 12V 5A
- Working temperature: 0-50°C, optional wide temperature -40-70°C
- Operating system: Supports Windows7/10/11 And Linux
- Size: 300mm×160mm×50mm
- Wireless communication: 4G communication for quick deployment

## UPC-309R

### Product Features

- Processor: Intel® 10th Generation Core™ i3/i5/i7 Processors
- Memory: 4GB-16GB DDR4
- Hard disk: mSATA 128GB SSD, optional 256GB, 512GB, etc
- I/O interfaces: 2×LAN, 4×USB 3.0, 2×USB 2.0, 6×COM
- Power input: DC 12V 5A
- Working temperature: 0-50°C, optional wide temperature -40-70°C
- Operating system: Supports Windows 7/10/11 And Linux
- Size: 300mm×160mm×50mm
- Redundant Power Input: Dual 9-36V wide voltage inputs

## UPC-206E

### Product Features

- Processor: Intel® Celeron J1900 Processors
- Memory: 4GB-8GB DDR3L
- Hard disk: mSATA 128GB SSD, optional 256GB, 512GB, etc
- I/O interfaces: 2×LAN, 1×USB 3.0, 5×USB 2.0
- Power input: DC 12V 5A
- Working temperature: 0-50°C, optional wide temperature -40°C-70°C
- Operating system: Supports Windows 7/10/11 And Linux
- Size: 195mm×160mm×46mm
- Phoenix Contact Terminal Block: supporting 1 RS-485, 1 RS-232, and 1 CAN

## UPC-209B

### Product Features

- Processor: Intel® 10th Generation Core™ i3/i5/i7 Processors
- Memory: 4GB-16GB DDR4
- Hard disk: mSATA 128GB SSD, optional 256GB, 512GB, etc
- I/O interfaces: 2×LAN, 4×USB 3.0, 2×USB 2.0, 3×COM
- Power input: DC 12V 5A
- Working temperature: 0-50°C, optional wide temperature -40°C-70°C
- Operating system: Supports Windows 7/10/11 And Linux
- Size: 195mm×160mm×46mm
- GPIO: support 16-channel GPIO with 8-in and 8-out

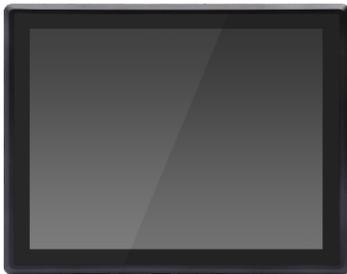

## 8-Inch Product Series

The 8-inch capacitive touch screen industrial panel PC features front panel IP65 protection and utilizes CESIPC intelligent expansion technology. Its modular design ensures seamless integration of the industrial motherboard, functional board, and display. This panel PC supports a variety of CPU modules and allows for rapid customization of I/O interfaces, significantly reducing development costs.

CESIPC will continue to pursue technology and provide excellent computer products and services to partners in all walks of life.

Specifications / Models	UTC-S0862A	UTC-S0882A	UTC-S0892A
<b>Display</b>	8 inch capacitive touch screen, front panel IP65 (Resolution 1024×768)		
<b>Processor</b>	Intel® Celeron® Processor J1900	Intel® 7th Generation Core™ i3/i5/i7	Intel® 10th Generation Core™ i3/i5/i7

<b>System</b>	Supports Windows7/10/11 And Linux		
<b>Size</b>	219.2mm×177.2mm×64.8mm		
<b>Application</b>	Factory MES System, Intelligent Logistics, Robot Control, Equipment Monitoring And Maintenance, Energy Management And Monitoring, Environmental Monitoring And Control, Security Systems		

## 10-Inch Product Series

10-inch capacitive touch industrial panel PC with IP65 protection on the front panel for stable operation in harsh environments. Using CESIPC connectivity extension technology, we have achieved a modular cable-less design that integrates industrial motherboards, function boards and displays. The smart product can accommodate a variety of CPU modules and quickly customize the I/O interface, thereby reducing development and maintenance costs. Whether it's an IoT application such as industrial automation, machine vision, or rail transit, it's easy to meet a variety of needs. More flexibility and reliability for your projects.

Specifications / Models	UTC-S1062A	UTC-S1082A	UTC-S1092A
<b>Display</b>	10 inch capacitive touch screen, front panel IP65 (Resolution 1024×768)		
<b>Processor</b>	Intel® Celeron® Processor J1900	Intel® 7th Generation Core™ i3/i5/i7	Intel® 10th Generation Core™ i3/i5/i7

<b>System</b>	Supports Windows7/10/11 And Linux		
<b>Size</b>	252.8mm×200mm×65mm		
<b>Application</b>	Factory MES System, Intelligent Logistics, Robot Control, Equipment Monitoring And Maintenance, Energy Management And Monitoring, Environmental Monitoring And Control, Security Systems		

## 12-Inch Product Series

12-inch capacitive touch screen industrial panel PC with front panel protection level IP65, cable-less modular separation design based on CESIPC intelligent expansion technology, cleverly integrates the industrial motherboard, modular function board and display screen, so that users can easily carry a variety of CPU modules as needed, and quickly customize the I/O interface, greatly reducing development and maintenance costs. Widely used in industrial automation, machine vision, rail transit and other IOT industries to meet the diversified application needs of customers.

Specifications / Models	UTC-S1262A	UTC-S1282A	UTC-S1292A
<b>Display</b>	12 inch capacitive touch screen, front panel IP65 (Resolution 1024×768)

<b>Environment</b>	0-50°C, optional wide temperature -40°C-70°C		
<b>System</b>	Supports Windows7/10/11 And Linux		
<b>Size</b>	291.2mm×229.8mm×66mm		
<b>Application</b>	Factory MES System, Intelligent Logistics, Robot Control, Equipment Monitoring And Maintenance, Energy Management And Monitoring, Environmental Monitoring And Control, Security Systems		

## 15-Inch Product Series

15-inch capacitive touch screen industrial panel PC has IP65-rated front panel protection, uses CESIPC intelligent expansion technology, and has a cable-less modular separation design. It cleverly integrates industrial motherboards, modular function boards and displays, supports a variety of CPU modules, and can quickly customize I/O interfaces, greatly reducing customer development and maintenance costs. Mainly used in industrial automation, machine vision, rail transit, etc. The IOT industry meets the needs of various application scenarios and provides customers with a full range of solutions.

Specifications / Models	UTC-S1562A	UTC-S1582A	UTC-S1592A
<b>Display</b>	15 inch capacitive touch screen, front panel IP65 (Resolution 1024×768)		
<b>Processor</b>	Intel® Celeron® Processor J1900	Intel® 7th Generation Core™ i3/i5/i7	Intel® 10th Generation Core™ i3/i5/i7
<b>Memory</b>	4GB-8GB DDR3L	4GB-16GB DDR4	
<b>Hard disk</b>	mSATA 128GB SSD, optional 256GB, 512GB, etc.		
<b>LAN</b>	2×LAN		
<b>USB</b>	1×USB 3.0, 5×USB 2.0	4×USB 3.0, 2×USB 2.0	
<b>COM</b>	6×COM		
<b>Environment</b>	0-50°C, optional wide temperature -40°C-70°C		
<b>System</b>	Supports Windows7/10/11 And Linux		
<b>Size</b>	358.3mm×282.2mm×72.8mm		
<b>Application</b>	Factory MES System, Intelligent Logistics, Robot Control, Equipment Monitoring And Maintenance, Energy Management And Monitoring, Environmental Monitoring And Control, Security Systems		

## 17-Inch Product Series

17-inch capacitive touch industrial panel pc, IP65 protection, CESIPC intelligent expansion technology, cable-less modular design, integrated motherboard, function board, screen, multi-CPU module support, customized I/O interface, reduce costs. Suitable for industrial automation, machine vision, rail transit and other IOT industries, to meet the needs of diverse applications, perfect realization of your design.

Specifications / Models	UTC-S1762A	UTC-S1782A	UTC-S1792A
<b>Display</b>	17 inch capacitive touch screen, front panel IP65 (Resolution 1280×1024)		
<b>Processor</b>	Intel® Celeron® Processor J1900	Intel® 7th Generation Core™ i3/i5/i7	Intel® 10th Generation Core™ i3/i5/i7
<b>Memory</b>	4GB-8GB DDR3L	4GB-16GB DDR4	
<b>Hard disk</b>	mSATA 128GB SSD, optional 256GB, 512GB, etc.		
<b>LAN</b>	2×LAN		
<b>USB</b>	1×USB 3.0, 5×USB 2.0	4×USB 3.0, 2×USB 2.0	
<b>COM</b>	6×COM		
<b>Environment</b>	0-50°C, optional wide temperature -40°C-70°C		
<b>System</b>	Supports Windows7/10/11 And Linux		
<b>Size</b>	395.4mm×227.5mm×73.7mm		
<b>Application</b>	Factory MES System, Intelligent Logistics, Robot Control, Equipment Monitoring And Maintenance, Energy Management And Monitoring, Environmental Monitoring And Control, Security Systems		

## 19-Inch Product Series

19-inch capacitive touch screen industrial computer adopts CESIPC intelligent extension technology and has IP65 front panel protection. Its unique cable-less modular detached design integrates industrial motherboards, modular function boards, and displays to provide customers with superior flexibility. The tablet supports a variety of CPU modules and can quickly customize the I/O interface, reducing development and maintenance costs. It is suitable for industrial automation, machine vision, rail transit and other IOT industries, meeting a variety of application needs and ensuring the perfect realization of your design.

Specifications / Models	UTC-S1962A	UTC-S1982A	UTC-S1992A
<b>Display</b>	19 inch capacitive touch screen, front panel IP65 (Resolution 1280×1024)		
<b>Processor</b>	Intel® Celeron® Processor J1900	Intel® 7th Generation Core™ i3/i5/i7	Intel® 10th Generation Core™ i3/i5/i7
<b>Memory</b>	4GB-8GB DDR3L	4GB-16GB DDR4	
<b>Hard disk</b>	mSATA 128GB SSD, optional 256GB, 512GB, etc.		
<b>LAN</b>	2×LAN		
<b>USB</b>	1×USB 3.0, 5×USB 2.0	4×USB 3.0, 2×USB 2.0	
<b>COM</b>	6×COM		
<b>Environment</b>	0-50°C, optional wide temperature -40°C-70°C		
<b>System</b>	Supports Windows7/10/11 And Linux		
<b>Size</b>	439.4mm×364.5mm×74mm		
<b>Application</b>	Factory MES System, Intelligent Logistics, Robot Control, Equipment Monitoring And Maintenance, Energy Management And Monitoring, Environmental Monitoring And Control, Security Systems		

## 10.1-Inch Product Series

The 10.1-inch capacitive touch screen industrial panel PC features front panel IP65 protection and utilizes CESIPC intelligent expansion technology. Its modular design ensures seamless integration of the industrial motherboard, functional board, and display. This panel PC supports a variety of CPU modules and allows for rapid customization of I/O interfaces, significantly reducing development costs. CESIPC will continue to pursue technology and provide excellent computer products and services to partners in all walks of life.

Specifications /Models	UTC-W1062A	UTC-W1082A	UTC-W1092A
<b>Display</b>	10.1 inch capacitive touch screen, front panel IP65 (Resolution 1920×1200)		
<b>Processor</b>	Intel® Celeron® Processor J1900	Intel® 7th Generation Core™ i3/i5/i7	Intel® 10th Generation Core™ i3/i5/i7
<b>Memory</b>	4GB-8GB DDR3L	4GB-16GB DDR4	
<b>Hard disk</b>	mSATA 128GB SSD, optional 256GB, 512GB, etc.		
<b>LAN</b>	2×LAN		
<b>USB</b>	1×USB 3.0, 5×USB 2.0	4×USB 3.0	4×USB 3.0, 2×USB 2.0
<b>COM</b>	3×COM		
<b>Environment</b>	0-50°C, optional wide temperature -40°C-70°C		
<b>System</b>	Supports Windows7/10/11 And Linux		
<b>Size</b>	263.1mm×175.1mm×65.8mm		
<b>Application</b>	Factory MES System, Intelligent Logistics, Robot Control, Equipment Monitoring And Maintenance, Energy Management And Monitoring, Environmental Monitoring And Control, Security Systems		

## 12.5-Inch Product Series

The 12.5-inch capacitive touch screen industrial panel PC features front panel IP65 protection and utilizes CESIPC intelligent expansion technology. Its modular design ensures seamless integration of the industrial motherboard, functional board, and display. This panel PC supports a variety of CPU modules and allows for rapid customization of I/O interfaces, significantly reducing development costs. CESIPC will continue to pursue technology and provide excellent computer products and services to partners in all walks of life.

Specifications /Models	UTC-W1262A	UTC-W1282A	UTC-W1292A
<b>Display</b>	12.5 inch capacitive touch screen, front panel IP65 (Resolution 1920×1080)		
<b>Processor</b>	Intel® Celeron® Processor J1900	Intel® 7th Generation Core™ i3/i5/i7	Intel® 10th Generation Core™ i3/i5/i7
<b>Memory</b>	4GB-8GB DDR3L	4GB-16GB DDR4	
<b>Hard disk</b>	mSATA 128GB SSD, optional 256GB, 512GB, etc.		
<b>LAN</b>	2×LAN		
<b>USB</b>	1×USB 3.0, 5×USB 2.0	4×USB 3.0	4×USB 3.0, 2×USB 2.0
<b>COM</b>	3×COM		
<b>Environment</b>	0-50°C, optional wide temperature -40°C-70°C		
<b>System</b>	Supports Windows7/10/11 And Linux		
<b>Size</b>	396.5mm×246mm×72mm		
<b>Application</b>	Factory MES System, Intelligent Logistics, Robot Control, Equipment Monitoring And Maintenance, Energy Management And Monitoring, Environmental Monitoring And Control, Security Systems		

## 13.3-Inch Product Series

The 13.3-inch capacitive touch screen industrial panel PC features front panel IP65 protection and utilizes CESIP intelligent expansion technology. Its modular design ensures seamless integration of the industrial motherboard, functional board, and display. This panel PC supports a variety of CPU modules and allows for rapid customization of I/O interfaces, significantly reducing development costs. CESIPC will continue to pursue technology and provide excellent computer products and services to partners in all walks of life.

Specifications / Models	UTC-W1362A	UTC-W1382A	UTC-W1392A
<b>Display</b>	13.3 inch capacitive touch screen, front panel IP65 (Resolution 1920×1080)		
<b>Processor</b>	Intel® Celeron® Processor J1900	Intel® 7th Generation Core™ i3/i5/i7	Intel® 10th Generation Core™ i3/i5/i7
<b>Memory</b>	4GB-8GB DDR3L	4GB-16GB DDR4	
<b>Hard disk</b>	mSATA 128GB SSD, optional 256GB, 512GB, etc.		
<b>LAN</b>	2×LAN		
<b>USB</b>	1×USB 3.0, 5×USB 2.0	4×USB 3.0	4×USB 3.0, 2×USB 2.0
<b>COM</b>	3×COM		
<b>Environment</b>	0-50°C, optional wide temperature -40°C-70°C		
<b>System</b>	Supports Windows7/10/11 And Linux		
<b>Size</b>	337mm×212.2mm×62.3mm		
<b>Application</b>	Factory MES System, Intelligent Logistics, Robot Control, Equipment Monitoring And Maintenance, Energy Management And Monitoring, Environmental Monitoring And Control, Security Systems		

## 15.6-Inch Product Series

15.6 inch industrial panel PC with 1920\*1080 display output and IP65 front panel protection level. Using CESIPC intelligent expansion technology, it uniquely integrates industrial motherboards, functional modules and displays. The tablet supports a variety of CPU modules, allowing customization of I/O interfaces, reducing development and maintenance costs. It is suitable for industrial automation, machine vision, rail transit and other IoT fields.

Specifications / Models	UTC-W1562A	UTC-W1582A	UTC-W1592A
<b>Display</b>	15.6 inch capacitive touch screen, front panel IP65 (Resolution 1920×1080)		
<b>Processor</b>	Intel® Celeron® Processor J1900	Intel® 7th Generation Core™ i3/i5/i7	Intel® 10th Generation Core™ i3/i5/i7
<b>Memory</b>	4GB-8GB DDR3L	4GB-16GB DDR4	
<b>Hard disk</b>	mSATA 128GB SSD, optional 256GB, 512GB, etc.		
<b>LAN</b>	2×LAN		
<b>USB</b>	1×USB 3.0, 5×USB 2.0	4×USB 3.0, 2×USB 2.0	
<b>COM</b>	6×COM		
<b>Environment</b>	0-50°C, optional wide temperature -40°C-70°C		
<b>System</b>	Supports Windows7/10/11 And Linux		
<b>Size</b>	396.5mm×246mm×72mm		
<b>Application</b>	Factory MES System, Intelligent Logistics, Robot Control, Equipment Monitoring And Maintenance, Energy Management And Monitoring, Environmental Monitoring And Control, Security Systems		

## 17.3-Inch Product Series

17.3 inch capacitive touch screen industrial panel PC with 1920\*1080 display and IP65 front panel protection level. Powered by CESIPC Connectivity Extension technology, this computer features a cableless modular separation design that integrates an industrial motherboard, functional module and display, providing excellent flexibility. Support a variety of CPU modules, can customize the I/O interfaces, thereby reducing development and maintenance costs. It is suitable for industrial automation, machine vision, rail transit and other Internet of Things industries.

Specifications /Models	UTC-W1762A	UTC-W1782A	UTC-W1792A
<b>Display</b>	17.3 inch capacitive touch screen, front panel IP65 (Resolution 1920×1080)		
<b>Processor</b>	Intel® Celeron® Processor J1900	Intel® 7th Generation Core™ i3/i5/i7	Intel® 10th Generation Core™ i3/i5/i7
<b>Memory</b>	4GB-8GB DDR3L	4GB-16GB DDR4	
<b>Hard disk</b>	mSATA 128GB SSD, optional 256GB, 512GB, etc.		
<b>LAN</b>	2×LAN		
<b>USB</b>	1×USB 3.0, 5×USB 2.0	4×USB 3.0, 2×USB 2.0	
<b>COM</b>	6×COM		
<b>Environment</b>	0-50°C, optional wide temperature -40°C-70°C		
<b>System</b>	Supports Windows7/10/11 And Linux		
<b>Size</b>	437mm×270mm×72mm		
<b>Application</b>	Factory MES System, Intelligent Logistics, Robot Control, Equipment Monitoring And Maintenance, Energy Management And Monitoring, Environmental Monitoring And Control, Security Systems		

## 21.5-Inch Product Series

21.5 inch capacitive touch screen industrial panel PC with 1920\*1080 display and IP65 front panel protection. Using CESIPC intelligent expansion technology, this computer adopts a wireless modular separation design, seamlessly integrating industrial motherboards, functional modules and displays, providing customers with great flexibility. Support a variety of CPU modules, can quickly personalize I/O interfaces, significantly reduce development and maintenance costs. Suitable for industrial automation, machine vision, rail transit and other IoT industries.

Specifications /Models	UTC-W2162A	UTC-W2182A	UTC-W2192A
<b>Display</b>	21.5 inch capacitive touch screen, front panel IP65		
<b>Processor</b>	Intel® Celeron® Processor J1900	Intel® 7th Generation Core™ i3/i5/i7	Intel® 10th Generation Core™ i3/i5/i7
<b>Memory</b>	4GB-8GB DDR3L	4GB-16GB DDR4	
<b>Hard disk</b>	mSATA 128GB SSD, optional 256GB, 512GB, etc.		
<b>LAN</b>	2×LAN		
<b>USB</b>	1×USB 3.0, 5×USB 2.0	4×USB 3.0, 2×USB 2.0	
<b>COM</b>	6×COM		
<b>Environment</b>	0-50°C, optional wide temperature -40°C-70°C		
<b>System</b>	Supports Windows7/10/11 And Linux		
<b>Size</b>	530.0mm×326.6mm×75mm		
<b>Application</b>	Factory MES System, Intelligent Logistics, Robot Control, Equipment Monitoring And Maintenance, Energy Management And Monitoring, Environmental Monitoring And Control, Security Systems		

## KLD-1062B(C)

### Product Features

- Display: 10 inch capacitive touch screen, front panel IP65
- Processor: Intel® Celeron Processor J1900
- Memory: 4GB-8GB DDR3L
- Hard disk: mSATA 128GB SSD, optional 256GB, 512GB, etc.
- I/O interfaces: 2×LAN, 1×USB 3.0, 5×USB 2.0, 3×COM
- RFID: Built-in 1× RFID, 13.56MHz IC / ID
- Working temperature: 0-50°C, optional wide temperature -40°C-70°C
- Operating system: Supports Windows 7/10 and Linux
- Size: 350.1mm×220.0mm×39mm
- Product application: Factory MES System, Intelligent Logistics, Robot Control, Equipment Monitoring And Maintenance, Energy Management

## UTC-S1562C

### Product Features

- Display: 15 inch capacitive touch screen, front panel IP65
- Processor: Intel® Celeron Processor J1900
- Memory: 4GB-8GB DDR3L
- Hard disk: mSATA 128GB SSD, optional 256GB, 512GB, etc.
- I/O interfaces: 2×LAN, 1×USB 3.0, 5×USB 2.0, 6×COM
- RFID: Built-in 1× RFID, 13.56MHz IC / ID
- Working temperature: 0-50°C, optional wide temperature -40°C-70°C
- Operating system: Supports Windows 7/10 and Linux
- Size: 436mm×282.0mm×49.3mm
- Product application: Factory MES System, Intelligent Logistics, Robot Control, Equipment Monitoring And Maintenance, Energy Management

## TPC-0862C

### Product Features

- 8 inch capacitive touch screen
- Powered by Intel® Celeron J1900 Processor
- Fanless design
- Front panel IP65
- 2USB, 1COM, 1HDMI, 1LAN
- Support -10-50°C, wide temperature optional
- 265mm×185mm×32mm
- Compatible with Windows 7/10 and Linux Centos/Ubuntu.
- Product application: Industrial and Manufacturing, Warehousing and Logistics, Building and Construction, Medical, Field Maintenance and Service, Outdoor Survey and Surveying

## TPC-1062A

### Product Features

- 10.1 inch capacitive touch screen
- Powered by Intel® Celeron J1900 Processor
- Fanless design
- Front panel IP65
- 2USB, 1COM, 1HDMI, 1LAN
- Support -10-50°C, wide temperature optional
- 275mm×193mm×23.5mm
- Compatible with Windows 7/10 and Linux Centos/Ubuntu.
- Product application: Industrial and Manufacturing, Warehousing and Logistics, Building and Construction, Medical, Field Maintenance and Service, Outdoor Survey and Surveying

## TPC-1082A

### Product Features

- 10.1 inch capacitive touch screen
- Powered by Intel® 7th Generation I3-7100U/I5-7200U/I7-7500U
- Fanless design
- Front panel IP65
- 2USB, 1COM, 1HDMI, 1LAN
- Support -10-50°C, wide temperature optional
- 275mm×193mm×23.5mm
- Compatible with Windows 7/10 and Linux Centos/Ubuntu.
- Product application: Industrial and Manufacturing, Warehousing and Logistics, Building and Construction, Medical, Field Maintenance and Service, Outdoor Survey and Surveying

## KLD-1061B

### Product Features

- 10 inch five-wire Resistive Touch
- Intel® Celeron J1900 quad-core quad-thread Processor
- Fanless design
- Whole protection level IP67
- Stainless steel 304 waterproof aviation connector
- Support -10-60°C wide temperature
- Compatible with Windows 7/10 and Linux Centos/Ubuntu.
- Product application: Meat Processing Plants, Side Food Factories And Dairy Processing Plants.

## UTC-S1592G

### Product Features

- 15 inch Capacitive Touch
- Intel® Gen 10 Core-i Processor
- Fanless design
- Whole protection level IP67
- Stainless steel 304 waterproof aviation connector
- Support -10-60°C wide temperature
- Compatible with Windows 7/10 and Linux Centos/Ubuntu.
- Product application: Meat Processing Plants, Side Food Factories And Dairy Processing Plants.

## UTC-W1592G

### Product Features

- 15.6 inch Capacitive Touch
- Intel® Gen 10 Core-i Processor
- Fanless design
- Whole protection level IP67
- Stainless steel 304 waterproof aviation connector
- Support -10-60°C wide temperature
- Compatible with Windows 7/10 and Linux Centos/Ubuntu.
- Product application: Meat Processing Plants, Side Food Factories And Dairy Processing Plants.

## UTC-W2192G

### Product Features

- 21.5 inch Capacitive Touch
- Intel® Gen 10 Core-i Processor
- Fanless design
- Whole protection level IP67
- Stainless steel 304 waterproof aviation connector
- Support -10-60°C wide temperature
- Compatible with Windows 7/10 and Linux Centos/Ubuntu.
- Product application: Meat Processing Plants, Side Food Factories And Dairy Processing Plants.

## DTU live broadcast TPC-0782B

### Product Features

- i5-7200U Processor; 7-inch Industrial Touch Screen Display;
- 2LAN, 1USB 2.0, 1USB 3.0;
- 1SDI IN, 1HDMI IN, 1HDMI OUT, AUDIO;
- Public Network or 4G/5G Internet;
- Convenience; Low Data Transfer Latency;
- Direct Cloud Editing with High Efficiency and No Restrictions.
- 210mm×225mm×56mm
- Compatible with Windows 7/10 and Linux Centos/Ubuntu.
- Product application: Military and Security Fields, Outdoor Adventures and Scientific Expeditions, Building and Construction, Medical and Hospital Environments, Aerospace and Aviation Industry

## G-1582B

### Product Features

- 15.6 inch dual screen capacitive multi-touch LED screen
- Powered by Intel® Core® Processor I5-7200U/I7-7500U
- High-capacity lithium battery 6000MAH, battery life 6 hours
- Fan cooling
- 4USB, 4COM, 1VGA, 2LAN
- Support -10-50°C, wide temperature optional
- 411mm×315.5mm×90mm
- Compatible with Windows 7/10 and Linux Centos/Ubuntu.
- Product application: Military and Security Fields, Outdoor Adventures and Scientific Expeditions, Building and Construction, Medical and Hospital Environments, Aerospace and Aviation Industry, Special Research

## CTN-1580K

### Product Features

- Triple-screen integration, visible in sunlight
- Intel Gen10 Core 8 cores, 16 threads
- 3\*HDMI, Audio, 4\*USB 3.0, 2\*LAN
- 4-hour ambient temperature battery life, with spare battery
- Robust aluminum alloy body, IP53 protection
- Highly integrated, portable operation
- Compatible with Win10/Linux systems
- Operating temperature: -10~70°C
- Product application: Military and Security Fields, Outdoor Adventures and Scientific Expeditions, Building and Construction, Medical and Hospital Environments, Aerospace and Aviation Industry, Special Research and Experiments

## Customers

Note: The above is a part of CESIPC's cooperative clients, in no particular order.

## After-Sales Service

### Telephone Support

CESIPC offers 24/7 hotline support to better serve our customers. For assistance, please contact us at:

TEL: +86-0755-85286061  
 TEL: +86-0755-85286060  
 TEL: +86-138 2373 2621

### Online Service

Our website ([www.cesipc.com](http://www.cesipc.com)) provides access to motherboard drivers, solutions to common problems, and product specifications. Customers can log in to inquire, download resources, or contact CESIPC customer service online via

QQ: 430 388 658  
 email: [sales@cesipc.com](mailto:sales@cesipc.com).

### Repair Service

CESIPC offers repair and replacement services for both standard and customized products. Customers may send defective products directly to the CESIPC headquarters at:

CESIPC Repair Center  
 8th Floor, Block 1B, Shangzhi Science and Technology Park, Guangming Avenue, Guangming District

## Global Service Station

For products beyond the warranty period, please contact CESIPC's agents, dealers, or business managers for consultation. On-site service is available across most regions of mainland China, with contract service engineers in North China, Northeast China, Northwest China, and other areas. Additionally, overseas agents in Vietnam, Thailand, Indonesia, and other countries provide fast and professional localized service.

Please ensure you back up your data before sending your product for repair, as data loss may occur during the repair process. CESIPC respects client privacy but is not responsible for data loss during maintenance. All products sent for repair must undergo inspection by the CESIPC Repair Center or an authorized repair service center to diagnose the fault. The service center will provide a repair plan to the customer. If no fault is found, the product will be returned as received. If the product does not meet warranty conditions and incurs charges, the CESIPC Repair Center or authorized service center will inform the customer of the repair costs.
